- Internship and work in the company

ACTIVITY

I have been passionate about the IT field since childhood, with a particular focus on front-end development. My journey began with learning the intricacies of web technologies and creating dynamic, user-friendly interfaces. I have a strong interest in new technologies and innovations, and I enjoy continuously expanding my knowledge in these areas. Additionally, during high school, I actively participated in the IT festival MicroElektra, which further fueled my enthusiasm for web development.
